LOGLINE:

On their way home from a party,
four friends find trouble in the woods.

TAGLINE:

Don't fear being lost in the woods.
Fear being found.

DIRECTOR'S STATEMENT-

Lake Forest Road is a very special film for many reasons. The biggest being it was an opportunity for education, collaboration and creativity for the Film Media program at the University of Rhode Island.

We shot the film in the West Greenwich woods and the production included mentorship programs with industry professionals from Los Angeles and New York for the students. A majority of the key creative roles were filled by students, many of whom had never been a part of a production of this scale before. From the script development stage in pre-production to the completion and marketing of the film, the students made this movie happen. I'm so proud to have been a part of this team and can't wait to see what these filmmakers accomplish in the future. We hope you enjoy our film!
